

# BREAST AUGMENTATION

Mahkota Hospital Malaysia 2009

A plastic surgery technique that can enlarge and shape the breasts and increase a woman's bust line by one or more bra cup sizes.

Look better, feel better, have the look you always wanted!

## Breast Augmentation

Breast augmentation is a surgery designed to enhance the size, shape, and symmetry of the breast, boosting confidence and self-esteem.

Breast size is an important component of a woman's appearance. Breast enhancement surgery can improve the figure and, as a result, has the potential to increase a woman's confidence in social and business settings. Additionally, clothing may fit better after breast enlargement, allowing women to wear a wider variety of fashions and further boosting confidence and overall enjoyment of life.

## Improved Aesthetics

Breast enhancement with implants accentuates a woman's breast size and gives a more shapely body contour. Breast enlargement can improve the aesthetics of the figure by adding definition and curves to the body's profile for a more attractive appearance. Larger breasts also bring

balance to a woman's hips and help eliminate that pear-shaped look.

## Increase your Confidence

Women who have undergone breast enlargement procedure typically report increased self-esteem and confidence, which usually translates to a better business and social life.

Women who have lost their breast size and volume to childbirth and breastfeeding also find that a breast procedure can restore a firm, youthful look to the breasts.

Women who have undergone surgery

due to breast cancer are able to maintain confidence as well.

## More Clothing Options

Get that 'oomph' in the iconic little black dress. Strut your bikini on a beach. Get your desired cleavage and definition necessary to wear those sexy low cut tops and dresses. Clothing of all types tends to hang better after a breast enhancement procedure because the body is more in line with fashion ideals.

# MAHKOTA HOSPITAL

## Breast Augmentation Treatment Mahkota Hospital

**Mahkota Hospital** is a private medical centre strategically located within the major business district and tourist area of Malacca. It overlooks the Straits of Malacca and is also within easy reach of many towns in the surrounding states.

Mahkota Medical Centre Malacca was launched in September 1994 with the principal objective being to provide an accessible, affordable and acceptable tertiary health care for the people.

Mahkota Medical Centre provides a one stop comprehensive patient care service supported by diagnostic radiology and clinical laboratory facilities. The Centre has two 11-storey buildings with 235 beds.

Round trip transportation from Singapore, or from Kuala Lumpur to Mahkota and then Singapore, is included. From KL this will take approximately between 1 to 2 hours, from Singapore approximately 2 hours and 30 minutes. These packages will allow you to have your treatment here

and relax and do your recovery in beautiful Singapore!
