It's different here

A cancer diagnosis is not the most pleasant time in your life. You probably have many questions and a lot of overwhelming feelings. "What should I do?" "What kind of treatments are there?" "What will it be like?" "Is there any hope?"

At the Pacific Cancer Centre we always remember what you are going through. We're here to make you feel better: physically and emotionally.

Our American oncologist brings the treatments that he's learned in the United States for all types of cancer to our patients. Starting with evidence-based treatments (treatments proven to show results), we coordinate complete cancer care, from surgery to radiation therapy to medical oncology.

Our diagnostic technologies show us quickly and accurately the extent or location of tumors and how fast you are progressing back to health. Our support services make your treatments more comfortable, reduce side effects, and maximize effectiveness.
