

# Total Hip Replacement

Bangkok Hospital Pattaya 2009

THR is the removal of damaged areas of the bone from the hip joint and replacement with an artificial ball and socket joint.

Feel better, walk again without pain, enjoy your improved quality of life!

## Total Hip Replacement

Total Hip Replacement (THR), also known as Hip Arthroplasty, is an orthopedic procedure commonly used to alleviate pain caused by Hip Arthritis and entails the removal of damaged areas of the bone from the hip joint and replacement with an artificial ball and socket joint.

If you have been suffering from restricted movement and walking due to a damaged hip, you are now able to have a Total Hip replacement to restore the

motion and function of your hip. Hip replacement surgery is successful more than 90 percent of the time.

### Reduced Joint Pain

Once the new joint has healed, a person should be able to return to most routine activities of daily living, minus the pain.

### Enjoy improved quality of life

Rediscover your favorite pastime recreational activities that you once loved such as walking, bicycling or playing golf.

Do note, however, that high-impact sports such as running, jogging; jumping will be discouraged because they can add unwanted stress on your new joint. Lifting weights greater than 20 pounds should be avoided as well.

### Length of stay: 4 nights

# BANGKOK HOSPITAL Pattaya

## Total Hip Replacement Bangkok Hospital Pattaya

### *Bangkok Hospital Pattaya*

Founded in 1990 with only 100 beds. 10 years later, a new building for a specialized clinic with 200 beds was built to provide care for a huge number of patients with special and complicated medical needs.

Bangkok Hospital Pattaya, now 400 beds facility, has become the center of specialty health care which provides special diagnostic and curative services. Such as the heart center, which is equipped with special diagnostic instruments to help analyzing heart diseases including; coronary artery angiograms, detecting blocked arteries around the heart and even carrying out coronary bypass surgery without using the artificial heart/lung machine.

We are the first in the Eastern region with these technologies the same as hospitals in Bangkok. Today, we also establish Brain center, Emergency Medical Services Center and

Dermatology and Cosmetic Surgery Center.

Since we have strived for excellence from the start, we recruit more than 90 specialists and have invested in modern high-tech medical equipments to help them make diagnosis and treatment more accurately, such as MRI, 64 Slice CT, PACs system (Pictures Archive Communication System). The hospital is now known as the most highly advanced in the eastern region.

To create a more convenient and comfortable atmosphere for our customers and their relatives, the area of Bangkok Hospital Pattaya has expanded with a new 15 storey building which is added to the original complex. Being a 400 beds facility, we improve all interior and landscape, we also train our staff and recreate the services to pamper our customers like being in a 5 star hotel.
