

# Rhinoplasty- Nose Augmentation

Bangkok Hospital Pattaya 2009

This is a procedure to remove visible signs of ageing such as deep creases on face, a slack jawline and folds around the neck. It involves removing excess fat, tightening underlying muscles and redraping the skin.

Turn back that clock by many years!

## Rhinoplasty

**Length of hospital stay  
1 night.**

Also known as a nose job, rhinoplasty can help asymmetry or defects from trauma and birth. It can soften the features and enhances one's confidence by bringing the entire face into a more harmonious balance.

### Create better 'pleasing-to-the-eye' symmetry

Research shows that humans react positively to facial

symmetry. Even the slightest off-centering of a nose can make a pronounced difference in a person's appearance, throwing the symmetry of the face completely out of balance. A nose job can remedy an off-center nose and restore or create symmetry in a patient's face, subconsciously making yourself more attractive to others.

### Get Your Desired Shape

Some prefer it sharp, some prefer it fuller. Whatever it is, rhinoplasty can subtly change

the tip or the bridge, narrow or widen the span of nostrils, or change the angle between the nose and upper lip.

### Breathe Better, Stay alert longer

If you are experiencing breathing difficulties with a particularly narrow nasal passage, rhinoplasty can alleviate a great deal of suffering by opening the passages to allow for easier breathing, giving your brain the much needed oxygen for better concentration. Rejuvenated and youthful appearance!

**PLEASE VISIT OUR 3D LIBRARY TO SEE AN ANIMATED EXPLANATION OF THIS PROCEDURE [WWW.WELLNESSTRAVEL.COM/E-LIBRARY-COSMETIC](http://WWW.WELLNESSTRAVEL.COM/E-LIBRARY-COSMETIC)**

# BANGKOK HOSPITAL Pattaya

## Rhinoplasty with Bangkok Hospital Pattaya

### *Bangkok Hospital Pattaya*

Founded in 1990 with only 100 beds, 10 years later, a new building for a specialized clinic with 200 beds was built to provide care for a huge number of patients with special and complicated medical needs.

Bangkok Hospital Pattaya, now 400 beds facility, has become the center of specialty health care which provides special diagnostic and curative services. Such as the heart center, which is equipped with special diagnostic instruments to help analyzing heart diseases including: coronary artery angiograms, detecting blocked arteries around the heart and even carrying out coronary bypass surgery without using the artificial heart/lung machine.

We are the first in the Eastern region with these technologies the same as hospitals in Bangkok. Today, we also establish Brain center, Emergency Medical Services Center and

Dermatology and Cosmetic Surgery Center.

Since we have strived for excellence from the start, we recruit more than 90 specialists and have invested in modern high-tech medical equipments to help them make diagnosis and treatment more accurately, such as MRI, 64 Slice CT, PACs system (Pictures Archive Communication System). The hospital is now known as the most highly advanced in the eastern region.

To create a more convenient and comfortable atmosphere for our customers and their relatives, the area of Bangkok Hospital Pattaya has expanded with a new 15 storey building which is added to the original complex. Being a 400 beds facility, we improve all interior and landscape, we also train our staff and recreate the services to pamper our customers like being in a 5 star hotel.

**Your Surgeon  
Thun Nasongkhla, M.D.**
