

CARDIAC SCREENING

Raffles Wellness Cardiac Screening

Consultation & Diagnostic tests:

Physical and Clinical Review by a cardiologist

- Risk Profile Assessment

Assessing risk factors of patient, which includes background and medical history, lifestyle etc.

- ECG

An electrical recording of the heart. Used in the investigation of heart disease.

- 2D Echo

Echocardiogram is a test in which ultrasound is used to examine the heart for visualization of the heart valves and other possible abnormalities.

- Coronary CT Angiogram (includes calcium scoring)

For detection of blockages in the arteries to the heart using 64 slice CT scanner

- Blood tests:

* Cholesterol profile

* Blood Glucose

* Blood Creatinine

* Full Blood Count

* Blood Grouping

* Renal Panel

* Liver Panel

* Metabolic Disorders

* Bone Disease (calcium reading)

* Cancer markets

* Venereal Disease Screening

* Hepatitis Screening

- Time length is approximately 3 days which includes consultation and running of tests on the first day and patient returns on 3rd day for review with the cardiologist after results of tests are out.

Care is Key.
Detection.
Prevention.

A hospital built around the needs of their patients

Raffles Hospital is a 380 bed, tertiary care hospital and the flagship facility of Raffles Medical Group, a leading private healthcare provider in Singapore and South East Asia since 1976.

Backed with 30 years of delivering quality medical care, the Raffles brand name is synonymous with quality and trust and offers a patient centric approach in delivering healthcare services.

All key specialist services are available and organized into 12 specialty clinics. Our team of specialists are organized as a Group Practice combining sub-specialty expertise and teamwork to ensure optimal,

affordable, and high quality care for our patients.

As a Group Practice, we provide a *holistic approach and an integrated team-based care* for our patients. They benefit from primary to specialist medical care which is all under one management and the multidisciplinary collaboration of our in-house specialists.

With our commitment to quality, you can be assured of medical services that are integrated, peer reviewed and medically audited.

Health screening is essential for the early detection of diseases and conditions that cause disability and death. These include silent killers like heart diseases, diabetes, hypertension and cancer.

You should take charge of your health and have an evaluation done to prevent any potential health risks. Early detection allows diagnosis and management of illnesses to be done appropriately. When all that is taken care of, your health and wellness could then be enhanced to achieve your lifestyle aspirations.
