

Breast Augmentation

Yanhee Hospital Bangkok 2009

A plastic surgery technique that can enlarge and shape the breasts and increase a woman's bust line by one or more bra cup sizes.

Look better, feel better, have the look you always wanted!

Breast Augmentation

Breast augmentation is a surgery designed to enhance the size, shape, and symmetry of the breast, boosting confidence and self-esteem.

Breast size is an important component of a woman's appearance. Breast enhancement surgery can improve the figure and, as a result, has the potential to increase a woman's confidence in social and business settings. Additionally, clothing may fit better after breast enlargement, allowing women to wear a wider variety of fashions and further boosting confidence and overall enjoyment of life.

Improved Aesthetics

Breast enhancement with implants accentuates a woman's breast size and gives a more shapely body contour. Breast enlargement can improve the aesthetics of the figure by adding definition and curves to the body's profile for a more attractive appearance. Larger breasts also bring

balance to a woman's hips and help eliminate that pear-shaped look.

Increase your Confidence

Women who have undergone breast enlargement procedure typically report increased self-esteem and confidence, which usually translates to a better business and social life.

Women who have lost their breast size and volume to childbirth and breastfeeding also find that a breast procedure can restore a firm, youthful look to the breasts

Women who have undergone surgery

due to breast cancer are able to maintain confidence as well.

More Clothing Options

Get that 'oomph' in the iconic little black dress. Strut your bikini on a beach. Get your desired cleavage and definition necessary to wear those sexy low cut tops and dresses. Clothing of all types tends to hang better after a breast enhancement procedure because the body is more in line with fashion ideals.

YANHEE HOSPITAL

A 30 minute journey from Bangkok center, Yanhee Hospital is without a doubt one of the key players in the Cosmetic Surgery field in Thailand.

For all Wellness Travel Patients: a Free Dental Check Up and or Free consultation with a Cosmetic Surgeon, in cooperation with Yanhee Hospital!

Yanhee, as a general hospital, is dedicated towards obtaining high medical standards of quality in primary, secondary, and tertiary stages including alternative medicine which is accepted by the general doctors in order to serve the general patients and managed care patients.

Yanhee is committed to provide the highest quality in cosmetic treatments and procedures by specialists for both local and international clients using the most modern facilities with state of the art technology.

Yanhee International Hospital aims to fully implement the national standards of quality by 2009. Furthermore, it aims to be the number one cosmetic facility and healthcare provider in Asia by 2010.

Nobody is born perfect, but with the advancement of technology, body imperfections may now be corrected to achieve aesthetic beauty.

In the skillful hands and expertise of our cosmetic surgeons, coupled with state-of-the-art medical equipment and technology, plastic surgery at Yanhee International Hospital is safely done at fairly reasonable cost.

This fact can be attested to by our large clientele not only of local but also of international patients who travel half the globe to receive cosmetic enhancement at Yanhee International Hospital.

Our 13 full-time cosmetic surgeons first will offer an in-depth, honest, professional evaluation of each patient, as no procedure is the same for all.

Then our patients are guided to define their expectations for surgery they want to undergo.
