

Rhinoplasty- Nose Augmentation

Yanhee Hospital Bangkok 2009

This is a procedure to remove visible signs of ageing such as deep creases on face, a slack jawline and folds around the neck. It involves removing excess fat, tightening underlying muscles and redraping the skin.

Turn back that clock by many years!

Rhinoplasty

**Length of hospital stay
1 night.**

Also known as a nose job, rhinoplasty can help asymmetry or defects from trauma and birth. It can soften the features and enhances one's confidence by bringing the entire face into a more harmonious balance.

Create better 'pleasing-to-the-eye' symmetry

Research shows that humans react positively to facial

symmetry. Even the slightest off-centering of a nose can make a pronounced difference in a person's appearance, throwing the symmetry of the face completely out of balance. A nose job can remedy an off-center nose and restore or create symmetry in a patient's face, subconsciously making yourself more attractive to others.

Get Your Desired Shape

Some prefer it sharp, some prefer it fuller. Whatever it is, rhinoplasty can subtly change the tip or the bridge, narrow or widen the span

of nostrils, or change the angle between the nose and upper lip.

Breathe Better, Stay alert longer

If you are experiencing breathing difficulties with a particularly narrow nasal passage, rhinoplasty can alleviate a great deal of suffering by opening the passages to allow for easier breathing, giving your brain the much needed oxygen for better concentration. Rejuvenated and youthful appearance!

A short journey from Bangkok, Yanhee Hospital is without a doubt one of the key players in the Cosmetic Surgery field in Thailand.

For all Wellness Travel Patients: a Free Dental Check Up and or Free consultation with a Cosmetic Surgeon, in cooperation with Yanhee Hospital!

Yanhee, as a general hospital, is dedicated towards obtaining high medical standards of quality in primary, secondary, and tertiary stages including alternative medicine which is accepted by the general doctors in order to serve the general patients and managed care patients.

Yanhee is committed to provide the highest quality in cosmetic treatments and procedures by specialists for both local and international clients using the most modern facilities with state of the art technology.

Yanhee International Hospital aims to fully implement the national standards of quality by 2009. Furthermore, it aims to be the number one cosmetic facility and healthcare provider in Asia by 2010.

Nobody is born perfect, but with the advancement of technology, body imperfections may now be corrected to achieve aesthetic beauty.

In the skillful hands and expertise of our cosmetic surgeons, coupled with state-of-the-art medical equipment and technology, plastic surgery at Yanhee International Hospital is safely done at fairly reasonable cost.

This fact can be attested to by our large clientele not only of local but also of international patients who travel half the globe to receive cosmetic enhancement at Yanhee International Hospital.

Our 13 full-time cosmetic surgeons first will offer an in-depth, honest, professional evaluation of each patient, as no procedure is the same for all.

Then our patients are guided to define their expectations for surgery they want to undergo.
